**OPEN
ROAD,
OPEN
MIND!**

Perfect for both urban cruising and even long touring, the updated J-Cruise3 features an enhanced superior ventilation system and Shoei Comlink for seamless connectivity. Experience unparalleled freedom and functionality wrapped up in the trust of true Shoei craftsmanship.

J-CRUISE 3

SAFETY AND COMFORT

**EVERY DETAIL IS METICULOUSLY
ENGINEERED FOR PEAK FUNCTIONALITY.**

Shoei Comlink system

- Seamless integration of a communication system (not included)
- No distraction of the helmet design, perfect aerodynamics

ULTRA
LIGHT

COMPACT
SHELL

7

SHOEI
J-Cruise3

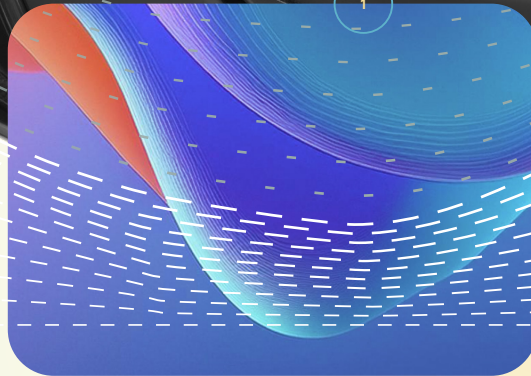

1

Wind tunnel engineered

The aerodynamic shape defines a comfortable touring helmet. Integrated spoiler – relaxed ride due to less turbulence. Ultra lightweight by innovative shell moulding technology.

AERO-DYNAMIC SHAPE

2

Enlarged QSV-2 sun visor

Sun visor with anti-fog coating. Optical precision, EN1836, smooth handling.

3

CJ-2 visor system

Minimised optical distortion. Airtight sealing. Easy and secure locking system. The bevel ensures stability and prevents wind from entering.

QSV-2

2

4

Top pocket system for customised fitting.

5

Improved Chinstrap: Smaller, more pleasant

Stainless steel Micro Ratchet System. Easy to use and always perfectly adjusted.

SPORTY DESIGN

6

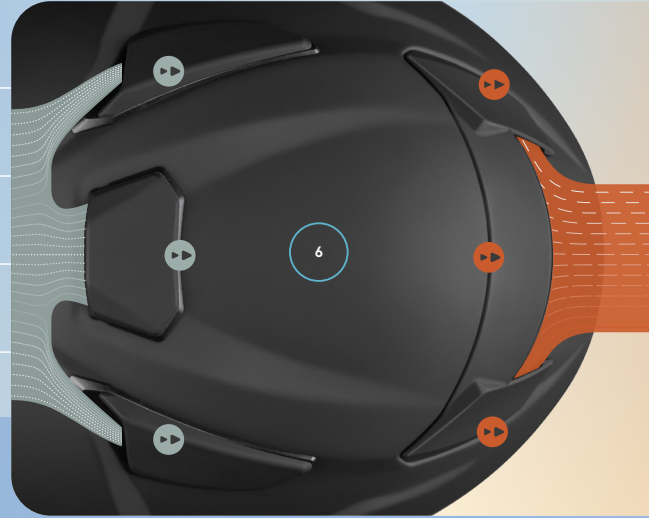

SHOEI
J-Cruise3

6

Advanced ventilation

Superior performance through optimised inlet position. Extra top outlet increases airflow by 70%.

**AIRFLOW INCREASED
BY 70%.**

Safety

- **Shell in AIM**
Organic fibre and multi-composite fibre in various layers for a shock-absorbent shell with optimum rigidity
- **EPS liner system with multiple densities**
Optimised protection through EPS elements with different shock-absorbing levels
- **CJ-2 visor**
Fast and easy to change
- **Stainless steel Micro Ratchet System**
Easy to use and always perfectly adjusted
- **ECE 22/06 homologation**

Wearing comfort

- **QSV-2 sun visor**
DIN EN1836 approved
- **3 different outer shell sizes**
For perfect fit and compact dimensions (XS-M / L / XL-XXL)
- **3D centre pad with top pocket**
For fine adjustment, pleasant wearing comfort, detachable, washable
- **Cheek pads detachable, washable**
For better care and individual adjustment
- **Chinstrap cover detachable, washable**
Easy to maintain and clean
- **Ear pads**
To reduce noise
- **Shoei Comlink system**
Seamless integration of a communication system (not included)

Ventilation

- **Multiple venting and extraction**
Optimum ventilation performance
- **Inlets at the upper head**
Fresh air supply guaranteed
- **Outlets at the rear**
To extract warm air

Aerodynamics

- **Integrated spoiler**
For optimised aerodynamical performance
- **Aerodynamic shape**

BORN FROM RACING,

1

2D visor shape

Easy application
of tear-offs

2D

5

Highly sophisticated aerodynamic system

- (A) Integrated spoiler
- (B) Rear flaps
- (C) Vortex generators
- (D) Lower air spoiler
- Reduction of drag and lift

Trigger Lock

Prevents visor detachment

2

Double secured visor lock system

Prevents opening due to an
impact caused by an accident

Emergency Quick Release System

- E.Q.R.S. rescue system
- For easy helmet removal in
case of an accident
- Pull to remove cheek pad

6

Multi-density EPS liner system

- Inner absorption liner
with different densities
- Optimised protection grown
from 60 years of experience

7

Pocket system for customized fitting

A set of 5 adjustment pads is available for
individual adjustment, simply insert the
pads into the respective pocket

SHOEI TECH- NOLOGY.

8

Modular padding

- Combine the different parts in individual
sizes for a perfect fit
- Tactile fabrics, soft and stable,
fully removable, washable
- Ultra wicking, quick dry

NEW **POCKET
SYSTEM**

TECHNOLOGY

9

High performance ventilation

- 7 closable air inlets, 6 air outlets
- Innovative cheek vent system, active cooling even in the lower part of the helmet

9

AIM+

10

6 ply shock-absorbent shell in AIM+

- Multi-composite and high performance fiber layers
- High strength, light weight
- Optimal elasticity

Safety

- ECE 22/06 - FIM homologation
- **Shock-absorbent shell in AIM+**
Organic fibre, multi-composite and high-performance fibre in various layers for a shock-absorbent shell with optimum rigidity
- **EPS liner system with multiple densities**
Optimised protection through EPS elements with different shock-absorbing levels
- **Mist-retardant CWR-F2R Pinlock® visor**
 - 2D shape for easy application of tear-offs
 - Double secured visor lock system
 - Vortex generators for advanced aerodynamic performance
- **Double D-Ring**
Easy to handle, always perfectly adjusted
- **E.Q.R.S. security system**
Emergency Quick Release System for easy helmet removal in case of an accident

Wearing comfort

- **4 different outer shell sizes**
For perfect fit and compact dimensions (XS-S / M / L / XL-XXL)
- **Modular centre pad, detachable, washable**
Pleasant wearing comfort
- **Cheek pads detachable, washable**
In different thicknesses for individual adjustment
- **Chinstrap cover detachable, washable**
For better care

Ventilation

- **High performance racetrack ventilation**
- **Innovative cheek vent system**
Active cooling even in the lower part of the helmet
- **7 closable air inlets and 6 air outlets**
Multiple venting and extraction

Aerodynamics

- **Sophisticated aerodynamic system**
Reduces drag and lift and avoids shaking, for high speeds up to 350 km/h
- **Rear stabilizer with flaps**
Rear flaps provide stability during braking
- **Lower air spoiler**
Controlled airflow around the lower part of the helmet

**BLUETOOTH
5.0**

PHOTOCHROMIC TECHNOLOGY FOR A SAFER, MORE ENJOYABLE RIDE.

Motorcyclists know how important a clear, crisp vision is. Traditionally, riders deal with changing light conditions by carrying two shields (one clear, one tinted) with them at all times.

Transitions® adaptive visors solve this problem and even enhance vision by seamlessly adjusting to optimised darkness levels with the changing light.

Transitions™ **ADAPTIVE** VISOR TECHNOLOGY

Designed to meet the international standards

- Transitions® Optical has been an industry leader in photochromic technology for 20 years and is known worldwide for its photochromic prescription eyeglasses.
- UV protection: the visor blocks 100% of UV rays
- Full activation in 2 minutes
- Impact resistant

Photochromic molecules make light, dark, and every shade in between possible

- When Transitions® lenses are exposed to UV light, trillions of photochromic molecules in the lens begin to change structure. This reaction is what causes the lenses to darken.
- The superiority of Transitions® brand technology lies in their exclusive, patented formulas. The molecules constantly and smoothly recalibrate so the optimal amount of light reaches your eyes whether you're in bright sunlight or under cloud cover.
